

Strengthening Ukraine's energy resilience

200 MW

Battery Energy Storage System (BESS)

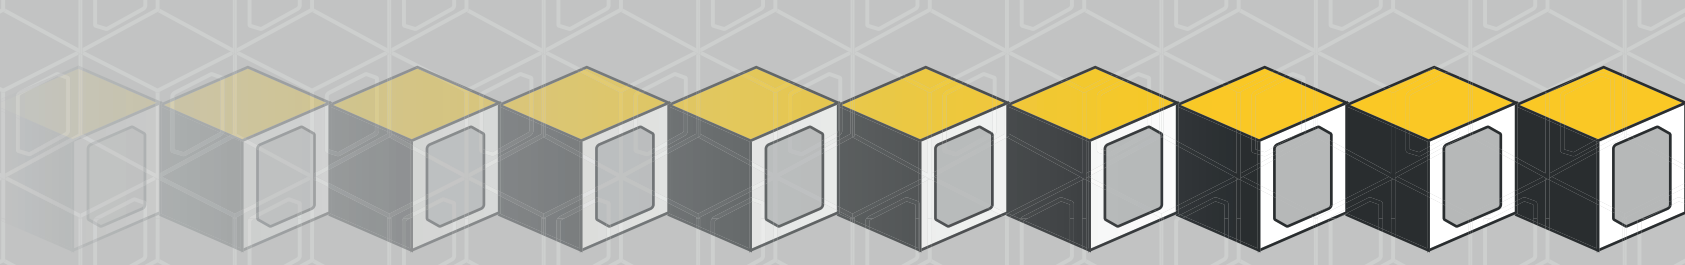

By the numbers

200 MW

total capacity

400 MWh

storage

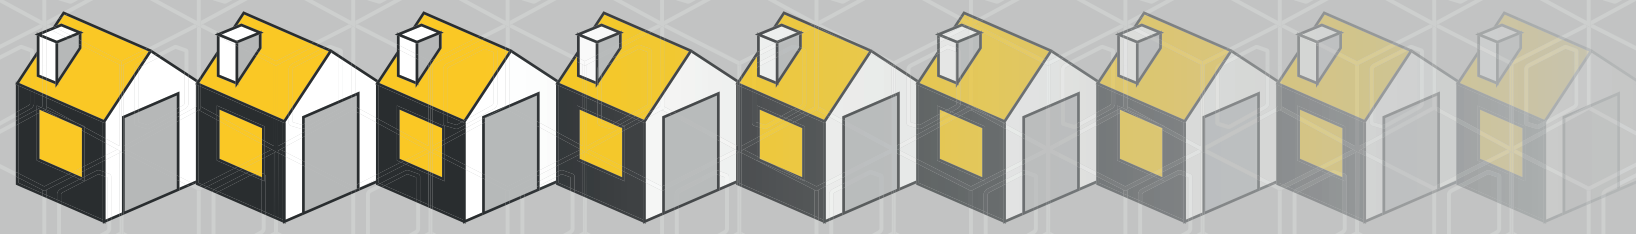

698

Fluence cubes

600,000

homes (2 hrs)

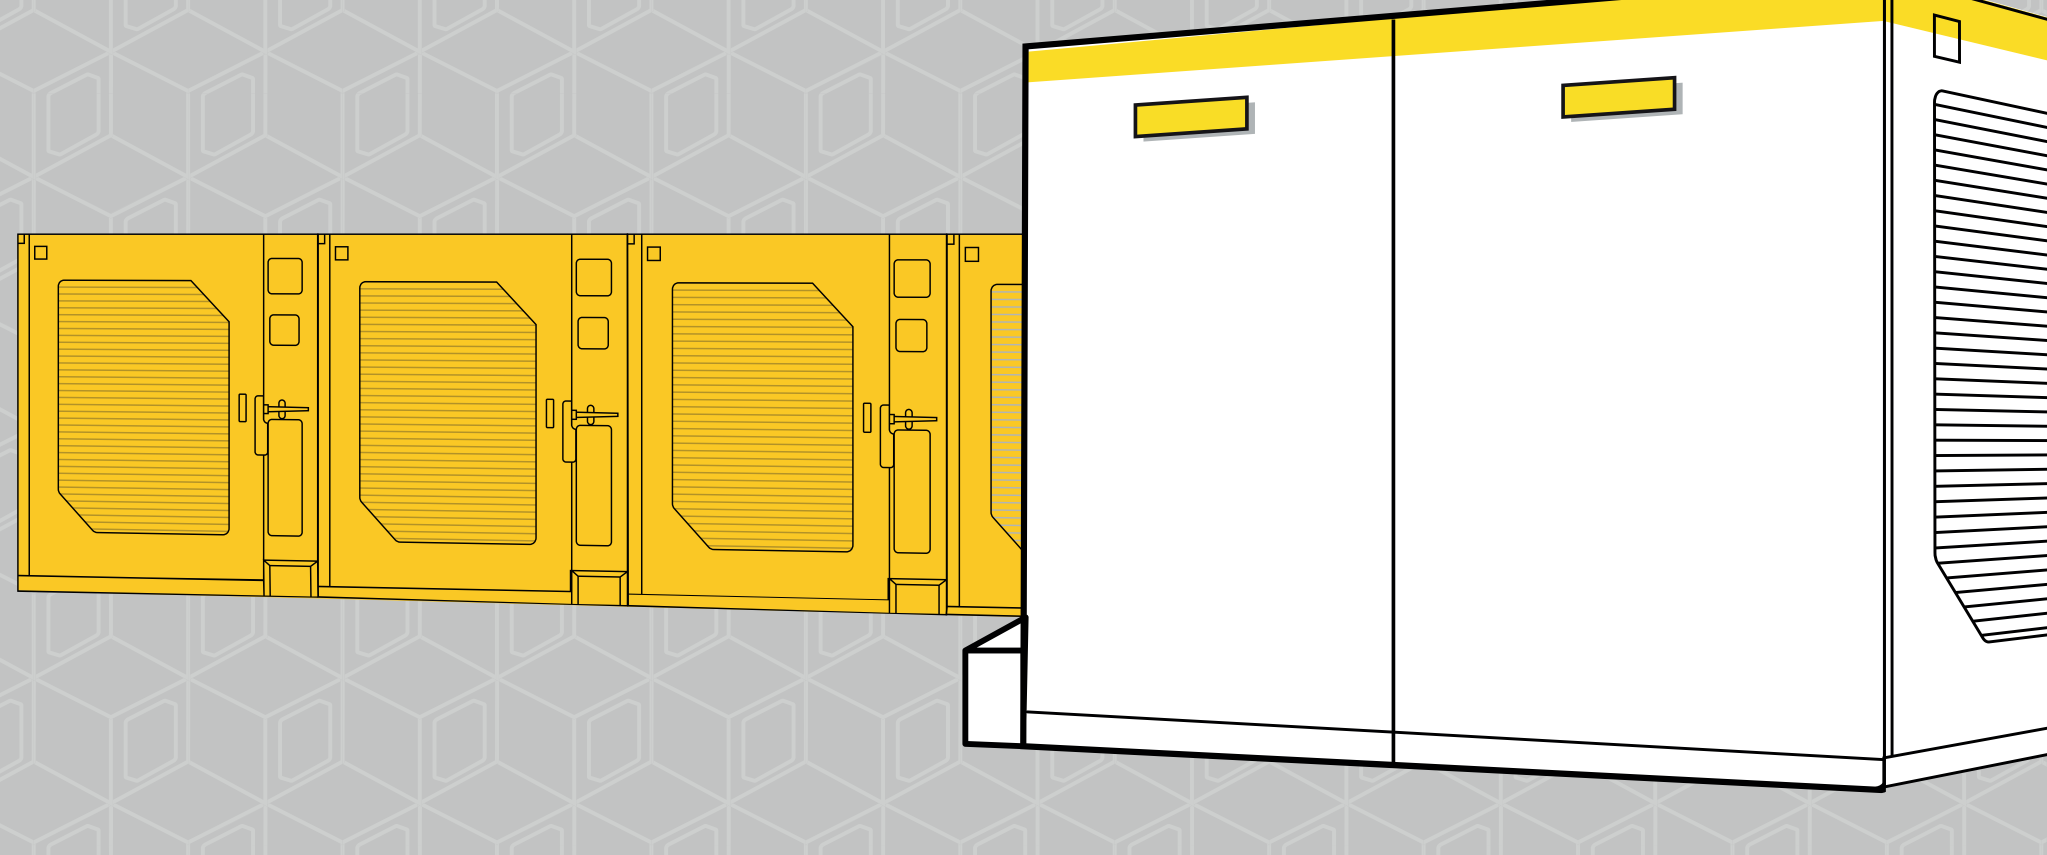

6 facilities

across Kyiv & Dnipro regions

investment

Operational advantages

Stops power shortages

Cuts blackout risks

Instant response (milliseconds)

Enables local restoration

Supports decarbonisation

Record speed delivery

Aug 2024

Mar 2025

Aug 2025

Oct 2025

Winter 2025/26

Auction won

Construction starts

All sites completed

Operations begin

Ready for winter season

Built in 6 months, not 2 years

Strategic value

Ukraine's largest battery project

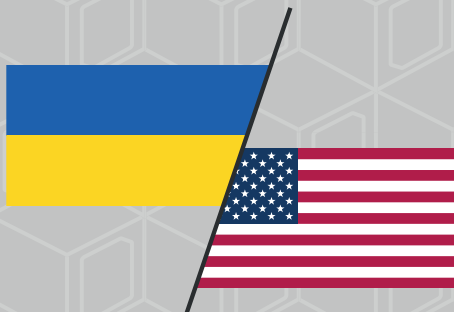

Eastern Europe's largest battery project

Direct response to attacks

National energy security

First major project under US-Ukraine Economic Partnership Agreement

Partnership

DTEK x **FLUENCE**

A Siemens and AES Company

Local expertise x global technology
