INSERT: Bright and everlasting memory to the warriors of light, who died during the war

Unfortunately, our colleague, energy worker, died during restoration of power in the Kyiv region. On 28 April 2022, an enemy mine took life of a 43-year-old Yurii Cherneha – lead engineer at DTEK Kyiv Regional Grids. This loss is a personal pain for the company, family, loved ones and colleagues that cannot be expressed. Glory and everlasting memory to the hero of the energy front and to all Ukrainian energy workers, who died restoring light to our homes.
