DTEK donated 142 vehicles to the defenders of Ukraine

Since the beginning of the war, DTEK Group renders every assistance to the Armed Forces of Ukraine and Territorial Defence Forces by arranging purchase and delivery of necessary protective equipment, food and vehicles.

During the full-scale war, the company transferred 142 vehicles from its own fleet, including cross-country cars and minibuses used for population protection tasks.

“Helping Ukraine and the Ukrainians is our priority. This is a consistent position of our shareholder Rinat Akhmetov outlining by him since 2014. We will always provide the necessary support to the Ukrainian army and will do everything in our hands to stop the military aggression against our country,”

Maxim Timchenko, CEO of DTEK, commented.

As a refresher, Rinat Akhmetov has transferred over UAH 2.1 billion for the needs of the Ukrainian Armed Forces, Territorial Defence Forces and relief to the war-affected population.
