# Two DTEK`s thermal power plants got hit by russia, and one stopped producing electricity

During today's massive shelling, the occupiers attacked two thermal power plants of DTEK Energy, which the enemy has repeatedly hit. Fortunately, no one was hurt.

As a result of the shelling, the equipment of the TPP was damaged. Immediately after

the end of the attack, the power workers began promptly eliminating the consequences.

**This is already the 26th terrorist attack on DTEK energy facilities.**

Engineers are working on restoring the equipment as soon as possible.
